How to keep the Earth Healthy

By Serenity

Can you believe that in the time you are at specials 2,500,000 water bottles are used? Can you believe that!? I'm going to give you some tips and tricks on how you can make that number go down. This is how you can keep the earth healthy.

Recycle

The first step is to recycle. If you don't animals die, air gets contaminated, animals can be born with deformed bodies, and much more. But you can't just throw a piece of trash in a recycling bin and call it good. No one really thinks about the process of recycling. Only paper, metal, glass and of course plastic can be recycled. Once you put all your trash in a recycling bin a truck comes and picks them up. Then they get put into different piles. After that they are put in a machine called a screen changer. There, they get crushed into a big cube. These cubes are so big you would need a forklift to carry them. Then companies come and pick them up. The paper cubes have a special water with chemicals is poured on it. The fibers start to stick together and over time a brand new roll of paper is created.

Use less trash

Using less trash means to use reusable bags when you shopping and reuse old water bottles. You can save up water bottles/recycled items and make crafts! You can find craft ideas in the next paragraph!

Experiments/crafts you can do with recycling

The first thing you can do is talk to your parents and see if you can save up money to buy a recycling bin and put it in front of their work. You can also make a greenhouse out of water bottles. For more you may want to go to www.pinterest.com

Fun facts

- The arrows on a recycling bin means reduce, reuse and recycle
- Only 2% trash is recycled a year
- The average American makes 4 pounds of trash a day and 1.5 tons of trash a year

Gigantic Missouri Map

By Bobby

Hi! I'm Bobby I want to inform you about an AWESOME thing!

On February 13-17 a GIGANTIC map of Missouri is coming to our school! Any class can sign up and do activities that their teacher picks. There are games like scavenger hunts for physical features, simon says to get places, learning cardinal directions, and measuring scale! I'm SUPER EXCITED about the map coming to our school!

No Toys and the Reason Why

By Kruze

Now here's a question, why should toys be allowed in school? In this article I hope you switch to my side with all these awesome reasons. Here's a story that happened in my class. A kid brought some toys to school and well she got them taken away.

Toys, typical toys, they make people not pay attention with results of kids not knowing what to do, kids being confused, kids flunking and most importantly their brains not growing!

Janitors and teachers if you are reading this I'm very sorry I bet you are always cleaning /picking up these toys! So... seriously kids leave your toys home for another reason to people might steal them so leave them home. Once I was walking in the hallway and I remembered "Oh... my toys are in my coat pocket in the gym." So I asked my teacher "Can I go get my coat?" believe it or not my toy was gone. I shouldn't have brought it.

Here's another thing teachers, your kids probably complain a lot about this topic, and let me guess the whining, the fighting and you having to end it by throwing them away. I'm really sorry for that too it's probably terrible.

Gym Class

By Corbin

Almost all of us like gym so I decided to pick the topic gym class. Now, the most popular game in gym is dodgeball. It's really not surprising. When I walk down the hallway and Sully and I think we're playing dodgeball everybody starts yelling yes! So that's how I found out. But I think the best dodgeball is the one with the wrestling mats. There's only like 5 people who slide the bean bags. All of the rest throw dodgeballs.

Coach Martin

All of you know coach Martin had a kid named Reese Tyler Martin she weighed 6 pounds and is 18 inches tall.

Outdoor gym

All of you have probably gone outside for gym. You run a lap or a mile. But I'll get to that in the next paragraph. The games we play are kickball, pirateball and steal the bacon. Which are around the most popular game.

Running the mile

Most of you know about running the mile my time was 7min 15-20 sec but it helps our body a lot. Exercising is good for your body so stay fit.

Kids if you are reading this leave your toys home. So good luck and I hope you make great choices.

Are you really taking care of your dog?

By Madison

If you really love your dog you should read this article it has all the info on your dog's needs.

Dog Food Amount

If you get a puppy make sure to get puppy chow so the puppy does not choke on its food.

A puppy's food amount is half a cup a day. If you have a big dog like a german shepard its food amount is a cup a day. If you have a medium dog like a red heeler its food amount is a cup a day.

If you have a small dog like a yorkie its food amount is half a cup a day. If you have a big dog its food amount is two cups a day.

Dog Food Brand

If you buy a dog food brand there has to be meat first on the ingredient list on the back. Make sure there is no corn, wheat, soy or corn syrup. I recommend Blue Wilderness because it has meat first on the ingredient list.

Dog Toys

Big dogs need extra strong Toys so they do not break under the pressure of the dog's jaws. Small dogs need small toys so they fit in

Who run a lot. Most working dogs don't need toys because they do not play as much.

Dogs Entertainment

Dogs need a lot of attention especially puppies it's good to entertain them. Usually you would pet a dog but sometimes that's not enough. Big dog's need a lot of attention and toys and tennis balls are a very good choice. Medium dogs love to run everywhere.

So if you like to run a lot that dog is a very good choice. All dogs love to go to the dog park and play with other dogs there so take them there often. If your dog jumps on you, train it not to.

I hope your dog is lean and strong after you have read this article. Have a good time with your dog and I guarantee your dog will have fun too.

About Sharks

By Pyranha

Sharks live in oceans all around the world but many species live in warm seas. If sharks are about to attack they can move 30 miles an hour. Only few attack humans. Sharks eat many other animals. Most of the sharks eat smaller fish but some sharks also eat

their mouth's. Medium dogs need bouncy balls and frisbees. Other dogs like red healers mostly like to run with cows so they like people

Miss Peregrine's Home for Peculiar Children

By Journie

It is a great movie and Tim Burton's work is cool because the home is very great. Just remember one thing: DON'T BRING A 3 YEAR OLD. Please don't bring a 3 year old. There are tons of monsters and it still scares me and I own the movie. I think you need to be 7 and up to watch it. There are differences from the book and movie. For example, the year is off one in the book than movie. So please watch this movie. I don't want to spoil it for you please watch this movie.

Sea lions and some even eat whales. There are around 450 different species of sharks.

Chromebook Idea

By Carter

I'm going to talk about the chromebooks and how amazing they are. First thing I'm going to talk about is how to change your google background. So first go find settings then click on get theme's or set wallpaper. Click on one of those and find the one you like. Now I am going to talk about the website's on the chromebooks we use in school. The first one is Myon and it let's you read, lots of books like dragons or ninja ones. The second one is Khan Academy and that one teaches you like multiplication, division, rounding, addition and subtraction and lots of other math problems. The third is Prodigy. A student can go to different worlds and battle creatures where you have to answer questions to problems to move on in the game.

Do you want to know about how to speak to Google? First, you click the Google picture on a computer and speak into the microphone icon in the middle of the screen. It is here you can ask questions by speaking and Google will search for the answers. The chromebooks help us with learning, so I think we need more because our teachers

Rising Son Karate

By Austin

One day at raising son karate we had a nerf gun night. There were a lot of nerf gun sounds and bullets were flying across my face. It was parents night out at karate and we played a lot of games then we had snacks and then we watched a movie.

When classes first started I only knew a few of the classic moves, but now I know a lot of karate moves. Every time you get a new belt you get to break a board and the more belts you get the thicker the boards get. In karate we get to play games like crab karate. You get stripes on your belt and when you get 5 black stripes and 1 red stripe you do a belt test and when you're done you get your new belt. The belts are white gold orange purple blue brown black. In karate you sometimes get to do courses and they're really fun .

It has taught me about self defense, respect and to not use karate unless you have to. It has made me strong. You should do karate to learn self defense and to have fun with us!!

love them, the kids love them, and even the parents love them. I think we need more!

Cheerleaders

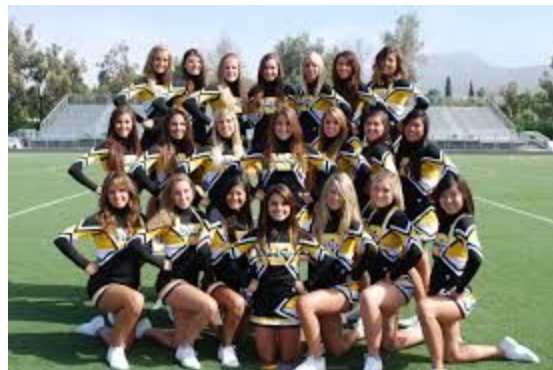

By Christ est Roi

Have you ever heard the cheer: "Can you turn around like Michael Jackson? Break it down like Britney Spears? Shake it up like salt and pepper? I don't think so !"

Cheerleaders practice in the gym. They learn how to dance. They do flips. They jump rope. They do push ups. They have to be fit and in shape.

They go to competitions with their friends. They have to practice and buy clothes. Sometimes they travel far.

They do cheers to help make noise in the gym or on the field at games.

Hair Refreshments

By Cambria

Are you having bad hair days? Well I am here to help you with hair styles, split ends and shaving the side of your head! Shaving the side of your head is the new style. You can get a lot of compliments and you even can put your name in your hair. You can put stars in your hair like the night sky. If you play a sport, get this, you can put your number in your hair! You can put designs in your hair that represent the closest holiday!

Split ends are bad, they make your hair look terrible. They are caused by damage to your hair. If you dye it too much you will fry it into split ends. Also, if you have too many heat tools like curling irons, straighteners, and blow dryers you might get split ends. To treat your hair use a tooth comb. After you apply conditioner in the shower slowly run a wide tooth comb through your hair until tangles are out. Brush gently, take folic and biotin, use leave in conditioner and blow dry the right way.

If you put plastic designs, that is the new style if you can find plastic letters you can spell your name in your hair. You can put your

awesome. If here is plastic food put your favorite food in your hair.

A messy bun looks good even though it is called a messy bun. A side braid is gorgeous and very pretty high bun with a braid wrapped around it is amazing. A fishtail braid is also sooo cute. Good luck with making your hair awesome see you next time.

Dear 4th graders,

I believe it's bad to be on social media especially Facebook. I've got three big reasons why.

First, it's bad for kids. Some people can do unsafe things to girls and boys. If kids are on it all the time they will never get to play outside or with other kids.

Also, some people pretend to be somebody else to get kids to trust them. But they really aren't good people. I've seen shows and heard about kids getting kidnapped even!

Finally, it's against the law! People are not allowed to be on Facebook by law if you are under the age of 13.

favorite shape in your hair, you could even say how you're feeling. You can put sparkly flowers in your hair to make your hair shine. You can put hearts in your hair if you love someone

Our Class Fair

By Hayden

To all of you people who got stuff at our class fair, thanks to you we got more than \$800! If you were wondering how we did it all here are some things that we did.

How we set it up!

We put the tables in a circle and we put the stuff where it was supposed to go. After that my teacher sent us to a spot to work at and after that we wanted to stay in till kids came. When we were still there giving people what they wanted to buy.

What we made!

We made lava lamps and we made bracelets, spoon trees and earrings we made flowers and snowflakes.

Where we put it!

We put the bracelets in the corner because the bracelets making spot is there and we put the lava lamps in the corner next to the marshmallow shooter is in the corner the earrings are by the basket with honey and stuff in it.

What we did this for!

We wanted to raise money for recycle bins and to get stuff for your family and to raise

Facebook isn't safe for kids, it's against the law it can start drama and isn't healthy.

From,
Elizabeth

All about Horses

By Makayla

Do you know how much food to feed a horse? Well if not you can find out in the next paragraph.

What horses eat

Most horses eat grain or hay. Horses need water in the winter. You may need to get something to keep the water from icing. If you would like to you can buy and use alfa cubes. For fun you can give them apples or carrots.

Where they live

Wild horses live together, that is called a team. Tame horse usually stay in a stable or in fence. Tame horses need a medium amount of space.

How to groom a horse

To groom a horse you something to brush their bodies, mane, and tail. You should use a curry comb to brush the horse's body. You can use a regular comb for the tail and mane. If you have a patch of grass you can get a water hose and spray them down there. Some horses easily get spooked so be careful. Deep in the horse's tail and main

money to save the animals and to get the plastic out of the ocean.

there may be cockerburells so make sure you cheek.

Kyrie Irving or Russel Westbrook

By Hayden

On April 12, 2015 the Indiana Pacers Paul George dribbled in but number 0, Russell Westbrook steals the ball. Paul George thinks "oh boy". Russell Westbrook jumps in the air and slams the ball into the hoop.

So I will tell you more about Russell Westbrook. Currently he has 24 triple doubles he averages 30.7 points per game. He was 5'7" as a senior in highschool and now as an NBA all-star he is 6'3.

Now I will talk about Kyrie Irving. He was the first pick in the first round in 2011. On March 13, 2015 Kyrie scored 57 points against the San Antonio Spurs, he led the Cavs to a 128-125 win.

So who do you choose? The high flying, fourth quarter star Russell Westbrook or the good ball handler and foul drawer Kyrie

Fun facts

- A one year horse is called a foal
- The Shire is the largest breed of horse
- Horses never vomit or puke
- Horses don't shed their hair

Genius Hour

By Kaylee

In November of 2016 my class started a thing called genius hour. Genius hour is an activity that we only do on a certain day but is really fun. The class splits up into smaller groups and those groups do their own little project. Every group has their own project my group is working on learning how to speak Spanish, one other group is learning guitar, another group is learning about murals and painting. We work on these project every Friday we work on our projects for one hour during Science and Social

Kid News Room 404

February 2017

Irving? So who do you cheer for? (think about it)

studies every Friday. We get supplies, some groups use wood and paper also some use guitars. In my group we use the computers to help us learn Spanish.

Superbowl Sunday

By Caleb

For all of you football fans out there who want to know who made it in the super bowl. Kansas City Chiefs were in the playoffs but the Steelers eliminated them and the score was 18 to 16. The next game the Steelers faced the Patriots. The Steelers were eliminated and the score was 18 to 36. The Seahawks faced the Falcons and the Seahawks were eliminated. The score was 20 to 36 and next they faced the Packers and the Packers were eliminated. The score was 21 to 24. The remaining teams were Falcons and Patriots.

In the Superbowl the Patriots won.

NCAA Basketball

By Daimond

Do you know about the NCAA? The NCAA is college sports. I learned about NCAA basketball. There are a lot of college students getting ready for the 2017 NBA draft. There are a lot of great young players in the NCAA I only know Lonzo Ball. Do you know anyone in the NCAA? I think Lonzo Ball is going to be the #1 NBA draft pick. Lonzo Ball lives in Anaheim California and plays for UCLA. Lonzo Ball has two siblings in high school one is Liangelo Ball the other is Lamelo Ball. Lonzo Ball averages 14.8 points per game, 8.0 assists per game, and 5.8 rebounds per game.

Football

By Malachi

Do you want to know more about football? Football was invented in the 1880s when a rugby player changed the rules and made it into American Football. His name was Walter Camp.

Next year I'm going to play football and other people in our class might play. Moms worry about us getting hurt. I kind of am too. But football is fun to play.

I like to watch football. Usually I go to my Aunt's house and a lot of people yell and it's funny. I cheer for the Chiefs.

Last year my sister was a cheerleader for 7th and 8th grade.

Anyone can play football and a lot of people like football and want it to be around for a long time.

Dinosaur at RME!

By Chloe

Have you seen it? Has it called your name? You know the dinosaur. Who is the person behind the fun? For a matter of fact I know who the person is. The person is Mrs. Hix! People want to know why she is doing this well I interviewed her and she said, "My class wrote my parents a note and told them to buy the suit for me." She also said that the day she wore the suit she enjoyed it. Mrs. Hix doesn't wear the suit very much. I think she said that she lets her students wear it sometimes. She said it is hot in the suit. The day she wore the suit I was SO confused! I was like, "what is going on? Is this someone's parent?" The day she wore the suit her class was laughing their heads off. It was an exciting day!

2016 World Series

By Sullivan

In the world series the fans were yelling and the players were hitting home runs. A curse was broken. After they won the cubs fans were happy and nervous. They were also climbing street signs and crying tears of joy. An indians fan got a 2016 world champs tattoo before the game 7. The people who hit the home runs on the cubs team were David Ross, Kris Bryant, Addison Russell, Anthony Rizzo, Dexter Fowler, and Javier Baez. And on the Indians the home run hitters were Roberto Perez, Carlos Santana, Jason Kipins, Jose Ramiez, and Rajai Davis. The curse started on October 6, 1945. Bill "Billy Goat" Sianis brought his goat to Wrigley Field. He thought it would bring good luck for the Cubs but the owner of the Wrigley Field told Bill Sianis he could not bring his goat to the field ever again. Bill was mad and said the Cubs would be cursed!

The teams that won the games of the World Series are Game 1: Cleveland Game 2: Chicago Game 3: Cleveland Game 4: Cleveland Game 5: Chicago Game 6: Chicago and Game 7: Chicago

Neapolitan Holiday Cookies

By Hannah

Valerie makes unique meals like the cauliflower crust pizza, kale & artichoke chicken casserole, & the baked salmon with honey mustard sauce, and you find more of Valerie's recipes at www.foodnetwork.com/chefs/valrie-bertinell/recipes.html. And here's a recipe just for you!

Kid News Room 404

Issue 1

February 2017

in the flour with a wooden spoon until well combined. Transfer the mixture to a medium bowl.

Clean the mixer bowl thoroughly and fit the mixer with the whisk attachment. Beat the egg whites on high speed until stiff peaks form. Fold the egg whites into the batter until thoroughly blended.

Transfer 1 1/2 cups of the batter to a medium bowl, then transfer another 1 1/2 cups of the batter to a second medium bowl. Add the red food coloring to one of the bowls and stir until the batter is tinted throughout. Add the green food coloring to the second bowl and stir until the batter is tinted throughout. Scrape each of the three batters into one of the prepared pans, using the spatula to spread the batter to the edges. Bake, rotating and switching the positions of the pans halfway through, until the edges are golden, 12 to 14 minutes. Let cool in the pans for about 5 minutes, then invert onto cooling racks and allow to cool completely.

To assemble, place the green layer on a large cutting board or a large inverted baking sheet lined with wax paper. Spread the raspberry jam evenly over the top. Place the

Special equipment: 3 quarter-sheet pans or three 13-by-9-by-2-inch jelly roll pans. Preheat the oven to 350 degrees F. Coat 3 quarter-sheet pans (or three 13-by-9-by-2-inch jelly roll pans) with cooking spray. Line each pan with parchment paper and coat the paper with cooking spray as well.

Place the almond paste in the bowl of a stand mixer. Break it up into small pieces with a fork. Fit the mixer with the paddle attachment and add the butter and sugar to the bowl. Beat the mixture on high speed until light and fluffy, about 7 minutes. Reduce the speed to medium, add the egg yolks, and beat until incorporated. Turn the mixer off and stir apricots, remove and chop them up to make them more spreadable. Top with the red layer. Cover with plastic wrap and place a heavy cutting board on top to weight it down. Refrigerate overnight.

Place the chocolate chips in a microwaveable bowl and melt in the microwave on low power about 2 minutes. Spread the chocolate on top of the cooled cake and let dry slightly. Trim the rim of the cake with a serrated knife to make clean edges. Cut the cake crosswise into twelve 1-inch-wide strips, then cut lengthwise into 1

Kid News Room 404
